As a Stakeholder, and one who has been determined to protect the graves of John Hutton Bisdee VC and to ensure the protection of the Thomas Jillett Family Crypt at Oatlands, I wish to thank everyone who has taken part in putting this draft together.

More so, the fact that the Government has listened to the people, whether they live in Tasmania or not. Having a beneficial interest in these two burial plots demanded that we did not sit back and just absolve our responsibilities to our ancestors.

I have a submission already with the Premier however will review it, in light of your intended changes, which have in many ways been precisely what my point of view as a Real Estate Agent had been.

To make certain that no grave is ever left in the condition that the Thomas Jillett Family Crypt was,, when we found it in 2010, and which I have written about, is one unexpected benefit of your changes. Next week during a Jillett/Bradshaw Reunion, the family will be in Oatlands to present new name plaques for the John Jillett Family crypt. As a family both crypts are protected.

Thank you most sincerely

Kris Herron
