Subject: Cemeteries Act.

As a concerned Priest in the Derwent Valley I question the 'Body Corporate ' needed into the future to run cemeteries. I question what this will do to the expense of a funeral. Funerals are relatively expensive now and with the cost of a body corporate running it, will the expenses blow out.

Will the families be charged a yearly rate for the maintenance of the graves? For 100 years+.
Body corporates to not run on nothing. At the moment the cemetery managers who are church members do this for love!

I can only see that funerals will become impossibly expensive. I think this needs more thought.

Yours sincerely,
Rev. Ellen Clark
