**To:** Local Government Legislation Review (DPaC)  
**Subject:** Submission

**That all Tasmanian Councils 'live stream' their meetings, any increase in the opening of council deliberations to observation by their electorate by whatever means is a desirable move in this day and age. You can do this with a mobile telephone these days; you don't need a video camera operator, a fixed point can be used to embrace all councillors and would only need switching on and off.**

**Yours Faithfully,**

**Neil Capill**
