Re: Review of Tasmania's Local Government Legislation Framework

Thank you for initiating the review of the Local Government Act and commencing a consultative process thereby providing opportunity for input.

I am writing on behalf of West Tamar Council to support the submission provided by the Local Government Association of Tasmania. While the opportunity has been provided for individual submissions, West Tamar Council does not wish to raise any additional specific issues, at this time.

At this early stage of the review process we have found it difficult to actively engage as the discussion paper presents more of a big picture overview rather than drilling into the detail. We look forward to participating in Phase 2 of the process when the Directions Paper is released and further opportunity for feedback is provided.

Yours Sincerely

Rolph Vos
