

# Tasmanian Government Card Expenses

The Tasmanian Government Card is another payment method available for Government Entities. For every transaction made on a Tasmanian Government Card, there is a relevant credit card slip and tax invoice held by the Department of Premier and Cabinet's Financial Management Services.

Appropriate credit card use includes any business-related expenditure such as travel, office supplies and related expenses, and excludes items such as fuel for Government vehicles, cash withdrawals, entertainment (includes meals and alcohol while not travelling, events and related costs) and personal expenses.

There were no Tasmanian Government Card expenses for Chiefs of Staff for Tasmanian Government Ministers for the six-month period 1 October 2024 to 31 March 2025.
