**Subject:** Draft Burial and Cremation Bill 2019

I have some points I would like to submit in relation to the Burial and Cremation Bill 2019.

#### 3.9.4 Natural Burials:

- There needs to be the ability for a group or trust to purchase and manage land specifically designated for natural burials in at least the 3 regions of Tasmania - southern, north west and north east. This would be inline with the state's image of clean, green and sustainable.
- Legislation should ensure large cemeteries have a site for natural burials.
