Subject: Burial and Cremation Amendment Bill 2018

The Amendment Bill 2018 is helping community concerns re cemetery's. But there is no mention of costs for the cemetery's manager or the upkeep of graves and cemetery's. Maybe people could look after their family grave under guidance of the manager, or pay a fee for it to be done. If no payment for grave maintenance is received for a certain time, the grave could be made redundant or used again, depending on soil condition and the manager's approval. In any case, cost option's ought to be included.
