

# Tasmanian Government Card Expenses

A Tasmanian Government Card is a type of payment method and is not a duplication of expenditure. For every transaction made on a Tasmanian Government Card, there is a relevant credit card slip and tax invoice held by the Department of Premier and Cabinet's Financial Management Services.

Appropriate credit card use includes any business-related expenditure such as travel, office supplies and related expenses, and excludes items such as fuel for Government vehicles, cash withdrawals, entertainment (includes meals and alcohol whilst not travelling, events and related costs) and personal expenses.

The tables below show Tasmanian Government Card business-related expenses for each Chief of Staff for the six-month period 1 October 2022 to 31 March 2023.

No Tasmanian Government Card purchases have been made in the reporting period by Chiefs of Staff.
