Good morning s.36

Lovely to speak with you. As discussed, I am currently holding Thursday 12 May 2022, 2.00-2.30pm for the Premier to meet with your CEO and Chair. The meeting will be held in the Premier's Office located in the Executive Building, Level 11, 15 Murray Street, Hobart.

I will hold this date and time tentative and look forward to hearing from you if this works in the Chair's diary. Once confirmed I note we will touch base a week or two prior to confirm you can book the flights.

if you have a bio for your new Chair and any discussion points for the meeting please send them through once confirmed.

Please do not hesitate to contact me any time.

Many thanks.

Kind regards

Good afternoon Narissa

Can you please let me know if Minister Palmer is available to meet with the new Chair of Tassal, James Fazzino during the week beginning Monday 9 May?

The previous Premier had proposed a meeting date of Thursday 12 May ~ but this request didn't progress any further.

Let me know as the Premier would like to meet with the new Tassal Chair, but he would like Minister Palmer to meet with the new Tassal Chair first.

Thanks
Mandy

Good morning Ange

I am sorry, but that 1 June meeting time is no longer available.

I can offer 5.15pm on Tuesday 31 May, 5.30pm on Thursday 2 June or 5pm on Tuesday 14 June.

Apologies, but I am hoping that one of the dates and times above suits – I have put place holders in the Premier's diary for all these times so they won't be taken.

Looking forward to hearing from you soon.

Kind regards
Mandy

Hello Ange

Thanks for your email and confirmation of your meeting with Minister Palmer on 9 May 2022.

Unfortunately the Premier has no availability on 9 May and due to Budget and Budget Estimates, the first date that I can offer a meeting between Tassal's Chair and CEO and the Premier is Wednesday 1 June at 5.00pm in Hobart.

Can you please let me know if this date and time suits, and if not, I will try and find another date that suits all parties.

I look forward to hearing from you soon.

Many thanks.

Kind regards

Mandy

Dear Mandy

I hope you are well!

Tassal Group CEO & our new Chair had a meeting request with the former Premier that we were waiting for date and time. In light of the leadership changes, we are looking to pick this up with Premier Rockliff.

We have just been informed that Minister Palmer is able to meet with them 9 am 9th May, and so was wondering if any possibility of also aligning a short meeting that same day.

Thanks

Ange

GUIDANCE NOTES FOR THE PREMIER

We understand that this is a meet and greet with the new Chair of the Tassal Board. Mr Fazzino joined the Tassal Board in 2020 and has recently become Chair of the Tassal Board. Mr Fazzino's background is in manufacturing. He is currently also a Director of Rabobank Australia.

It is recommended that the Premier can:

10-Year Salmon Plan

The Government is currently developing a 10-Year Salmon Plan that will commence on 1 January 2023, underpinned by the following principles:

- ***There will be no net increase in leased farming areas in Tasmanian waters:***
An immediate 12-month moratorium is in place. There will be no net increase in total leasable area for fin fish farming in State waters beyond the current allocations and those areas subject to current research permits that may result in approved lease areas.
- ***Innovation – future growth lies in land-based and off-shore salmon farming:***
New research and innovation programs will be developed to support salmon farming further offshore in deep waters, including Commonwealth waters, and to increase salmon farming onshore, in land-based systems.
- ***World-best practice through continuous improvement:***
World's best practices will be ensured through continuous improvement in regulation and transparency, and fees and charges reviewed to ensure full cost recovery and an appropriate return to the Tasmanian community.
- ***Strict independent regulation:***
The separation of the Environment Protection Authority (EPA) from the Department of Natural Resources and Environment Tasmania will further enhance its role as the independent environmental regulator. Immediate additional positions will be created to support compliance, including a new Director of Fin Fish Compliance.

The Plan is being developed over 12 months, allowing industry and the community to identify new long-term actions that support a vision for a sustainable industry, and which continues to support Tasmanian jobs and businesses across the supply chain.

The draft project outline provides for multiple phases of consultation, including public meetings and the establishment of a dedicated forum.

Salmon companies, scientific institutions, non-government organisations, community groups, tourism, supply chain businesses, peak bodies, and different levels of government are all encouraged to take the opportunity to have their say.

It is anticipated an Issues Paper will be released for public consultation by mid-year – with further consultation to follow.

Tassal's Operations in other States

Tassal, in their 2021 Sustainability Report, reports operating two prawn farms in Queensland (Mission Beach and Proserpine), and one in New South Wales (Yamba), with other interests also in these States including an 'Aquaculture Development Area' (Exmoor Station QLD) and a 'Seafood Processing Facility' (Lidcombe NSW).

Additional interests include a 'Sales and Marketing' facility in Kew VIC, and in the Northern Prawn Fishery in the NT.

The report records harvest tonnage (HOG) of salmon for the FY2021 of 40 018 tonnes, and 3 919 tonnes of prawns.

Current Trading (domestic and international) for the salmon industry

The 2020-21 financial year estimated farm-gate value of the aquaculture sector totalled \$1.06 billion.

The value of salmonid production totalled an estimated \$1.0136 billion (based on financial reporting information supplied by companies to the ASX and Government).

There are indications that export trade to some countries has increased in recent months, noting that Tassal focuses on both the domestic (56% retail, 25% wholesale) and international markets (19% export).

Other Issues

Blue Economy CRC

Tassal is a partner in the Blue Economy CRC that brings together government and research partners from ten countries with expertise in aquaculture, marine renewable energy, and maritime engineering.

There are a number of research programs currently underway investigating technologies and options in:

- off-shore engineering and technology;
- seafood and marine products;
- off-shore renewable energy systems;
- environment and ecosystems; and
- sustainable off-shore developments
