Subject: Local Community Facilities Fund and Other funding priorities

Hi there

Please find attached the spreadsheet as discuss for the LCFF plus a further worksheet with a list of other funding priorities.

Can you please send to Treasury and determine the timelines for funding. We will need to prepare a letter to go to all organisations from the Premier in relation to the release of the funding across community projects.

Please come back to me if any issues.

Thanks

Carol

Hi Jessica

Just advising that on Friday September 10, 4:30pm at West Park Burnie, I have arranged for Roger to meet with the City of Burnie Cycling Club.

- They received a PDF of \$2500 for repairs to loan bikes and to also purchase a junior bike (letter to Premier attached re: PDF)
- They were also successful in the recent Local Communities Facility Funding of \$10,798 for scooters for training in Motor Pacing Events – which they have received monies for and already purchased the scooters (info attached x 3)

s.36 is the contact on s.36 – He has asked if we could contact The Advocate, and I also advised him to do same.

Just FYI - this same evening, and just across the road at Burnie Park commencing at 5:30pm is the walk for 'Out of the Shadows into the Light' which both Minister Rockliff and Roger will be attending and speaking at. The Advocate usually run a story on this event in Saturday's paper – well have done previous years. They just might turn up at West Park prior to Burnie Park with some luck!!

Many thanks
 Leanne

City of Burnie Cycling Club

Burnie Bikes

P.O Box 3017 MDC South Burnie

burniebikes@outlook.com

Dear Mr. Jaensch

The Burnie Bicycle club are in need of one or two new motor pace Scooters. These scooters are used for weekly training and racing at the New Year's days sports and any other carnivals. The scooters that we have are old Chinese scooters and are at the point of being dangerous and will require a lot of money spent on them, which the club just does not have. I would hate to see someone come off at the speed they do, as they do over 70kms an hour.

The State u19 Team recently attended the National in Brisbane and won a silver medal. Will Eaves and Dalton Stretton ride with the burnie club. These are an especially important part of their training.

Your assistance to us has been greatly appreciated.

Good luck in the election.

Kind Regards

s.36

Speaking note – City of Burnie Cycling Club – New pacing scooters

6

We are all familiar with motor bikes that lead the cyclists at events but what we cycling luddites may not know is that they play an important role in training elite cyclists. They are used to set the pace for cyclists at training and are a key part of preparing for elite events.

Cycling is both a popular and serious sport in Tasmania as I am sure we all know from the numbers of people on the roads any day of the week, to the mountain trails and cycling tracks that are now drawing cycling tourists from all over the world.

The City of Burnie Cycling Club knows how important it is to have the right gear if we want to see more Tasmanians on podiums at major events.

If the Gutwein Liberal Government is re-elected we will happily provide \$10,978 for the Club to purchase two new Yamaha NMAX scooters with ABS for weekly training sessions and races at various carnivals and events where Club members compete.

These will be purchased from local business, AJL, so not only do we produce great sportspeople here in Burnie, but the Club is buying local and supporting businesses that provide jobs and contribute greatly to the local economy. AJL came through Covid-19 with flying colours and now, the riders at City of Burnie Cycling Club will do the same.

I'm pleased to say the City of Burnie Cycling Club already have their successes. Two Burnie club members, Will Eaves and Dalton Stretton are part of the of the State u19 team that won a silver medal at the National in Brisbane recently and I congratulate Will and Dalton for their hard work and commitment to their sport.

Thanks to the club and for all the work they do to give sporting opportunities to Tasmanians and I hope the new bikes will make a big difference. We look forward to more members of the teams from Burnie standing on an international podium sometime soon. Good luck and bring home some gold to Burnie!

Roger Jaensch MP

LIBERAL MEMBER FOR BRADDON

10 February, 2021

7

The Premier
Hon Peter Gutwein MP
Executive Building
Level 11, 15 Murray Street
HOBART TAS 7000

Dear Premier

I write on behalf of the City of Burnie Cycling Club Inc. to seek your consideration of funding from the Premier's Discretionary Fund of \$2500.

The City of Burnie Cycling Club has a proud history and is an important part of the local community and provides juniors and seniors with the ability to ride in a safe environment. The Club has produced many champion riders, with some past members even representing Australia at the Olympics.

The Club loans 'track bikes' to all new riders who don't have a bike of their own. The existing loan bikes are more than 10 years old and require significant maintenance eg: tyres and tubes, chains, gearing and pedals. Also, the opportunity to purchase a junior bike would be a welcome asset to the Club.

Cycling is an all-inclusive sport and the Burnie Club has a great mix of male and female riders, with ages ranging from seven years old through to riders in their sixties.

As the Tasmanian Government is committed to supporting the State's sport and recreation sector as we recover and rebuild from COVID-19, I seek your consideration of this Premier's Discretionary Fund request, which has my full support.

Yours sincerely

Roger Jaensch
MEMBER FOR BRADDON
