To: Ministerial Diaries
Subject: disclosure of minisireal diaries

You don't often get email from [REDACTED] [Learn why this is important](#)

To whom it concerns, I believe that all ministerial diaries need to be made public weekly to show transparency and give public reassurance of the integrity of government officials and bolden strength in the democratic system that is sadly lacking now. Demotion and loss of supa contributions for twelve months being a deterrent to not conform. I believe all diaries should be made easily accessible in the public domain, in a web site and a facebook account managed by a department of records. i also consider that all those that enter our buildings that are used for the implementing of governance and do so as lobbyists need to be identified by personal name tags to identify who they are and who they represent, this information to also to be made freely accessible to public within seven working days of the person entering a building used for governance. The people of tasmania have lost faith and trust in all sections of government to do what is right for the common good of citizens, this being highlighted frequently by incompetence in spending blowouts , disregarded expert advice and poor public consultation and disclosure. We want democracy , we didnt expect tyrants.
