Hi, regarding the proposed cutting of councillor numbers i am in full support, but do not agree that councillors need higher super payments, ratepayers are being hammered with increased rates and charges and the present councillors in tasmania are constantly searching for new ways to squander our money on themselves ,so please no more money to councillors, any savings should be used to lower council rates so the whole community benefits, not just a few elites who have the time and money to run for council.

Amalgamate more councils and lower our rates.

And why have we increased our state parliament numbers ?

Regards B Smith
