Valid wwvp cards /To whom it may concern my submission is that all councillors should have to have wwv people cards to be elected or stay on council. Mayors and councillors wear the hat 24 hours a day. Once elected you are a public figure and in kids and vulnerable people a person they should be able to approach and its safe to do so. No one knows who cant get a wwvp card or whose is suspended etc. Thats why all elected or seeking to be elected councillors need valid wwvp cards. I have one and so does my husband and even cleaners have them

Please forward contact details if its meant to be lodged using another email address other than the above ones

I have included some of you so you know I have lodged a submission regards local government and I do know Labor support all local government having to have valid wwvp cards to be elected or sit on council

kind regards

Tammy King
