Population Trends, Tasmanian Local Government Areas 1993-2017

Introduction

Population growth in Tasmania and across Australia more generally has recently received considerable interest from policy makers at all three levels of government. Tasmania currently has the oldest and slowest growing population in Australia, though the growth rate has improved significantly in recent years.

Population growth to date has occurred at various rates across Tasmanian Local Government Areas. Key trends outlined in this paper may inform future strategies for dealing with predicted population growth or decline. They may form part of the backdrop to the ongoing discussion on the viability and sustainability of small, rural and regional councils, in the face of the services they will be expected to deliver.

This document describes and summarises key trends from 1993 to 2017, but does not seek to analyse or explain the drivers of changes that have occurred. It uses the latest available data from the Australian Bureau of Statistics to examine population trends in Tasmanian Local Government Areas from 1993 to 2017. All information is sourced from the Australian Bureau of Statistics's Regional Population Growth book 3218.0 - Population Component Data. Relevant data is included in Appendices I & II.

Council classifications

Information in this document is grouped under five council classifications, based on population size and density and in line with the *Australian Classification of Local Governments* (ACLG).

Data is presented in council groupings which are based on the *Australian Classification of Local Governments*, first published in September 1994, to help the Australian Government understand the needs of local government across Australia. The classifications take into account population size and density.

In 2016-17, Tasmanian councils fit into the five classifications shown below.

Urban medium councils (UM)	Urban small councils (US)	Rural agricultural very large councils (RAVL)	Rural agricultural large councils (RAL)	Rural agricultural, small & medium councils (RASM)
population 30,000—70,000	population 20,000 to 30,000, or up to 20,000 where density more than 30 people per km ²	population 10,000—20,000 density less than 30 people per km ²	population 5,000—10,000 density less than 30 people per km ²	population under 5,000 density less than 30 people per km ²
Clarence City Glenorchy City Hobart City Kingborough Launceston City	Brighton Burnie Central Coast Devonport West Tamar	*Derwent Valley Huon Valley *Latrobe Meander Valley Northern Midlands Sorell Waratah-Wynyard	Break O'Day Circular Head Dorset George Town Kentish Southern Midlands	Central Highlands Flinders Island Glamorgan-Spring Bay King Island Tasman *West Coast

* Changes to population figures have resulted in movements between classifications for:

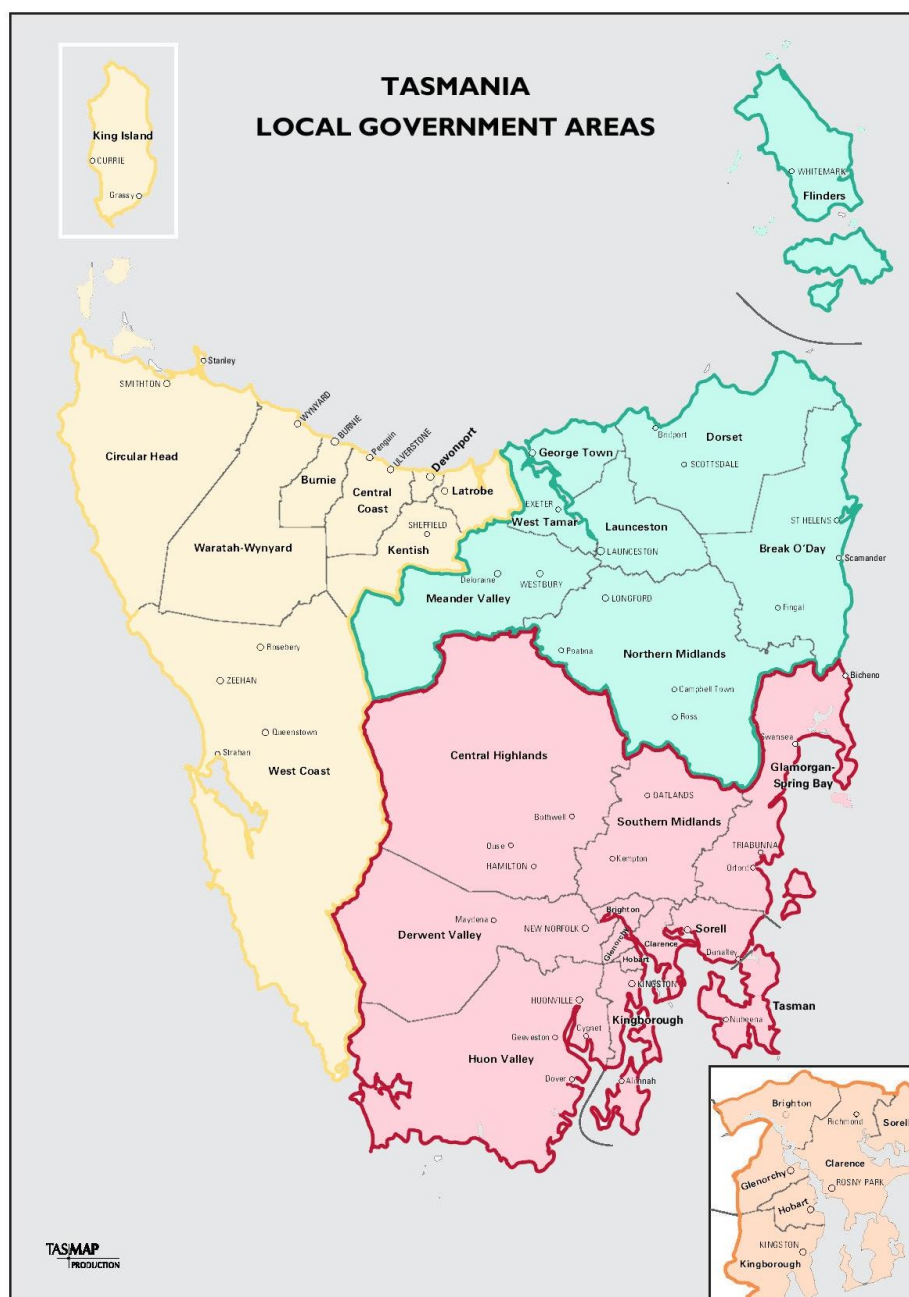

- Derwent Valley Council, from RAL to RAVL – population increased to above 10,000 people in 2014;
- Latrobe Council, from RAL to RAVL – population increased to above 10,000 people in 2010; and
- West Coast Council, from RAL to RASM – population declined to below 5,000 people in 2011.

Tasmanian council regions

Information in this document is also grouped by council regions. Regional trends show where the majority of population growth is occurring, and can be used to help form regional council strategies. Tasmanian councils can generally be split into three regions: North (N), North West (NW) and South (S). The regions are highlighted in Figure 1, below.

The North West region is made up of nine councils in the Cradle Coast Authority. The North West has three urban small councils (*Burnie, Central Coast* and *Devonport*), two rural agricultural very large councils (*Latrobe* and *Waratah-Wynyard*), two rural agricultural large councils (*Circular Head* and *Kentish*), and two rural agricultural small & medium councils (*King Island* and *West Coast*).

Figure 1. Map of Tasmanian Local Government Areas by region.

The Northern region is made up of 8 councils, consisting of one urban medium council (*Launceston*), one urban small council (*West Tamar*), two rural agricultural very large councils (*Meander Valley* and *Northern Midlands*), three rural agricultural large councils (*Break O'Day, Dorset* and *George Town*), and one rural agricultural small & medium council (*Flinders*).

The remaining 12 councils form the Southern region. The region has four urban medium councils (*Clarence City, Glenorchy City, Hobart City* and *Kingborough*), one urban small council (*Brighton*), three rural agricultural very large councils (*Derwent Valley, Huon Valley* and *Sorell*), one rural agricultural large council (*Southern Midlands*), and three rural agricultural small & medium councils (*Central Highlands, Glamorgan-Spring Bay* and *Tasman*).

The Greater Hobart (GH) region forms a subset of the Southern region, consisting of Hobart, Kingborough, Glenorchy, Brighton, Clarence and Sorell. Together, these councils make up over 40 per cent of Tasmania's population, and have experienced the largest growth in population from 1993-2017.

Population Change by Council

Figure 2 shows the total change in population from 1993 to 2017. A total of eighteen councils saw a population increase in the 24 year period since 1993, with a total of nine councils seeing a decrease in total population from 1993. Those councils that saw a decrease in population include Flinders Island, George Town, King Island, Circular Head, Waratah-Wynyard, Central Highlands, Burnie, Dorset and West Coast.

Figure 2. Change in Total Population by Council, 1993 – 2017.

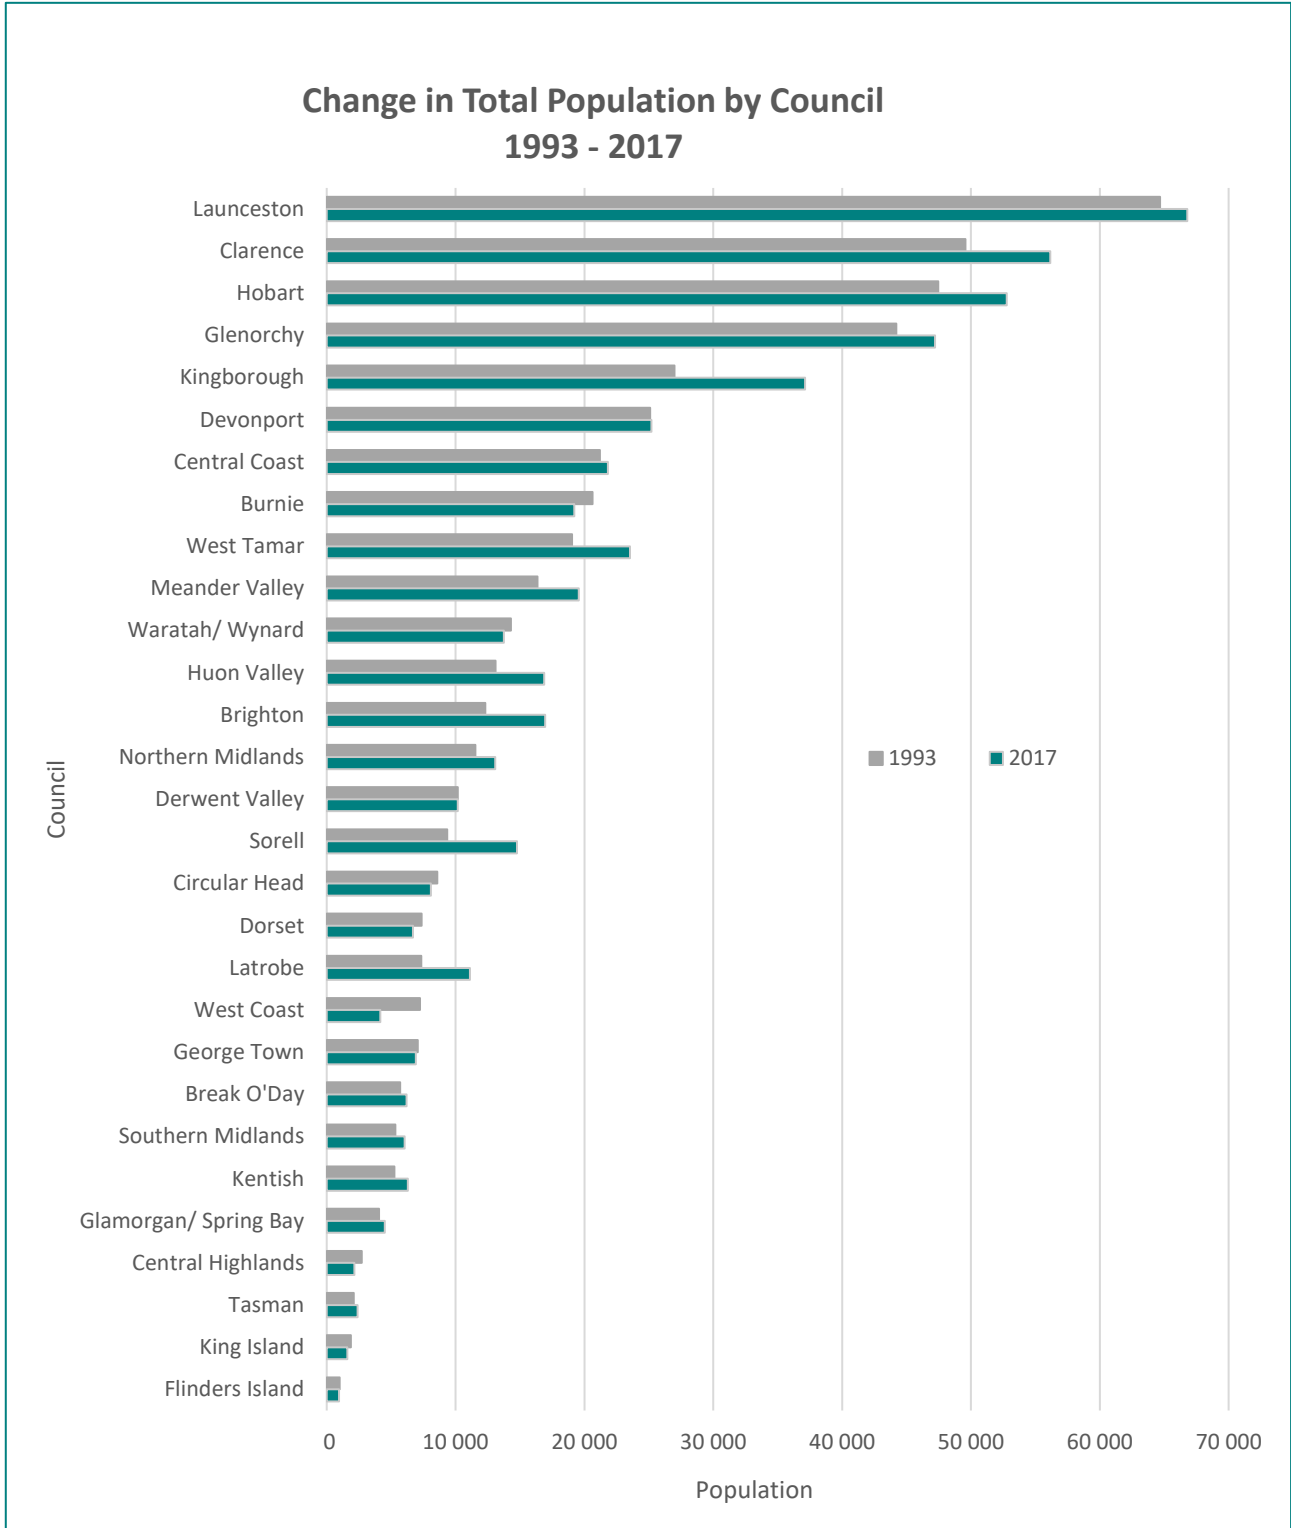

Figure 3 shows that Council growth and decline ranged from 58 per cent to – 43 per cent. Sorell saw the sharpest increase in population, with an increase of 58 per cent or 5 411 people. The West Coast saw the sharpest decrease in population with a decrease of 43 per cent, or 3 083 people. The populations of Derwent Valley and Devonport remained stable during the time period.

Figure 3. Percentage Change in Total Population by Council, 1993 – 2017.

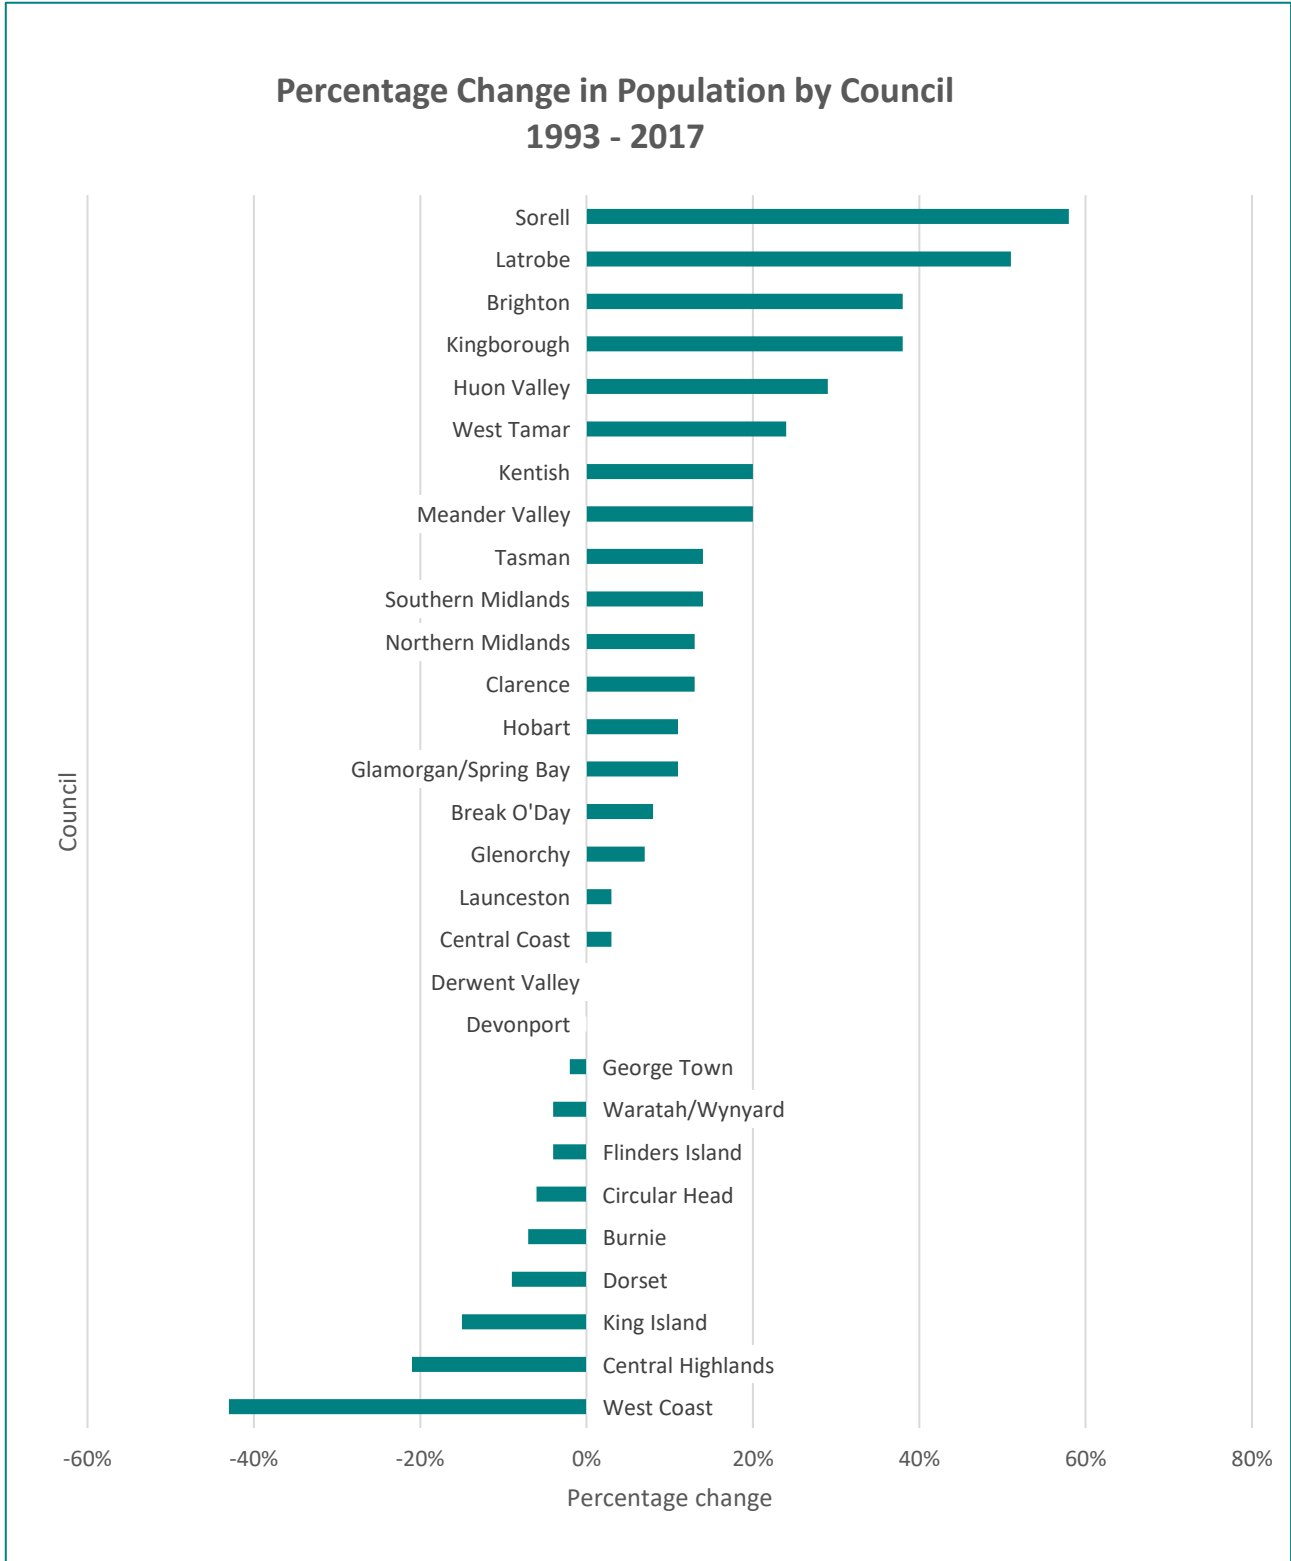

Figure 4 shows that Councils with large populations of more than 10 000 people experienced the majority of growth from 1993 – 2017 (RAVL, US and UM). Only three councils with smaller populations experienced high population growth. The majority of growth also occurred in the Southern region. In contrast, Figure 5 shows the majority of decline occurred in councils with small populations of less than 10 000 people (RAL, RASM). Only two councils with large populations experienced population decline. The majority of decline occurred in the North West region, followed by the Northern region. Only one council in the Southern region experienced a population decline from 1993 – 2017.

Figure 4. Councils with High Population Growth.

Councils with the Highest Population Growth as a Percentage 1993 - 2017						
Council	Classification	Region	1993 Population	2017 Population	Difference	Percentage Change
Sorell	RAVL	S (GH)	9 360	14 771	+ 5 411	+ 58%
Latrobe	RAVL	NW	7 351	11 109	+ 3 758	+ 51%
Brighton	US	S (GH)	12 307	16 960	+ 4 653	+ 38%
Kingborough	UM	S (GH)	27 000	37 133	+ 10 133	+ 38%
Huon Valley	RAVL	S	13 105	16 870	+ 3 765	+ 29%
West Tamar	US	N	19 036	23 530	+ 4 494	+ 24%
Kentish	RAL	NW	5 262	6 296	+ 1 034	+ 20%
Meander Valley	RAVL	N	16 365	19 572	+ 3 207	+ 20%
Tasman	RASM	S	2 097	2 390	+ 293	+ 14%
Southern Midlands	RAL	S	5 321	6 053	+ 732	+ 14%

Figure 5. Councils with Low Population Growth

Councils with the Lowest Population Growth as a Percentage 1993 – 2017						
Council	Classification	Region	1993 Population	2017 Population	Difference	Percentage Change
West Coast	RASM	NW	7 245	4 162	- 3 083	- 43%
Central Highlands	RASM	S	2 725	2 148	- 577	- 21%
King Island	RASM	NW	1 870	1 592	- 278	- 15%
Dorset	RASM	N	7 358	6 704	- 654	- 9%
Burnie	US	NW	20 628	19 210	- 1 418	- 7%
Circular Head	RAL	NW	8 577	8 088	- 489	- 6%
Flinders Island	RASM	N	998	957	- 41	- 4%
Waratah/Wynyard	RAVL	NW	14 284	13 755	- 529	- 4%
George Town	RAL	N	7 060	6 917	- 143	- 2%
Devonport	US	NW	25 109	25 212	+ 103	+ 0%

Population Change by Region

Figure 6 shows the change in population over time by Region. The largest growth occurred in the Southern region, with an 18 per cent increase overall. Northern councils also experienced growth, with an eight per cent increase overall. The population of the North West has remained stable through the same time period.

Figure 6. Population Change over Time by Region

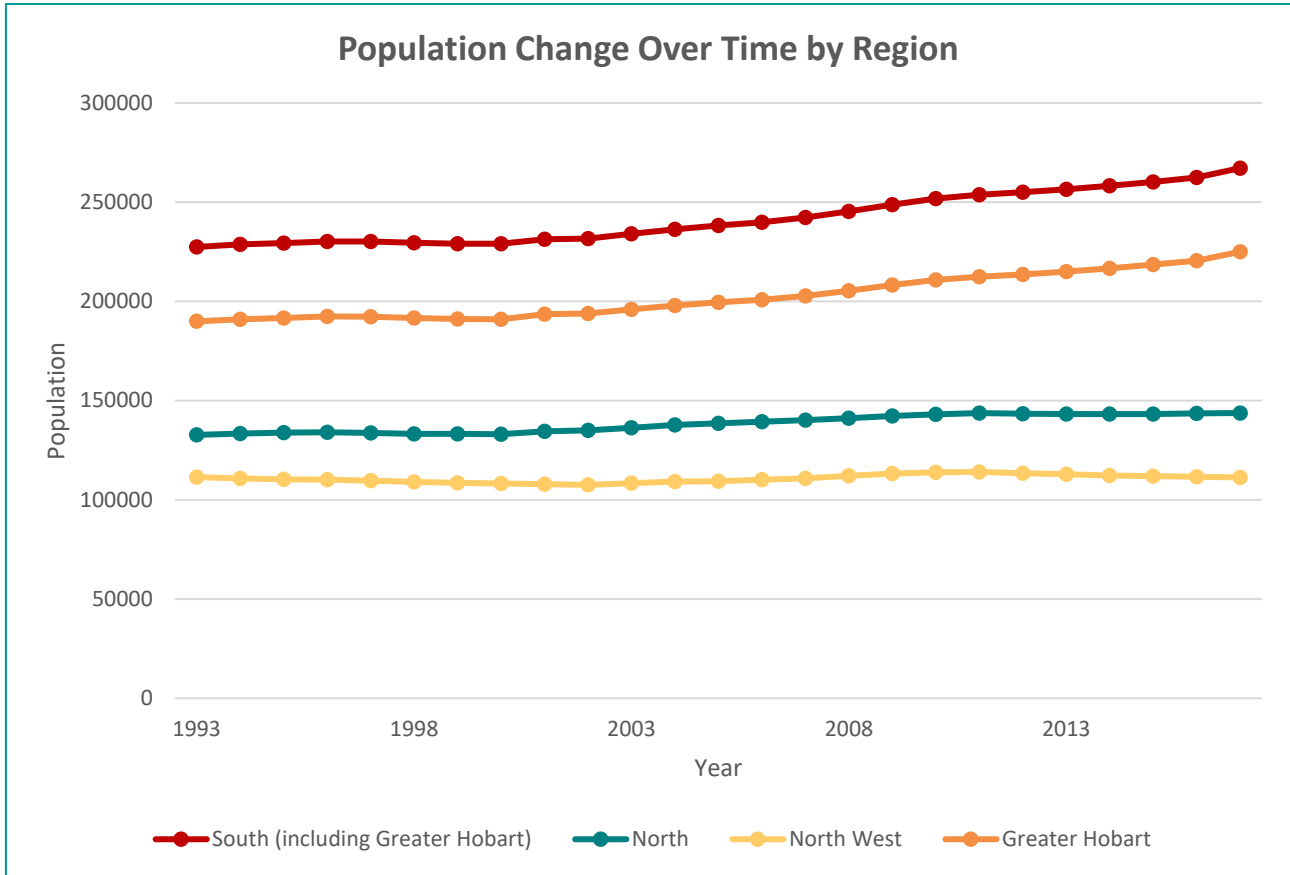

Figure 7. Percentage Change by Council Classification, South

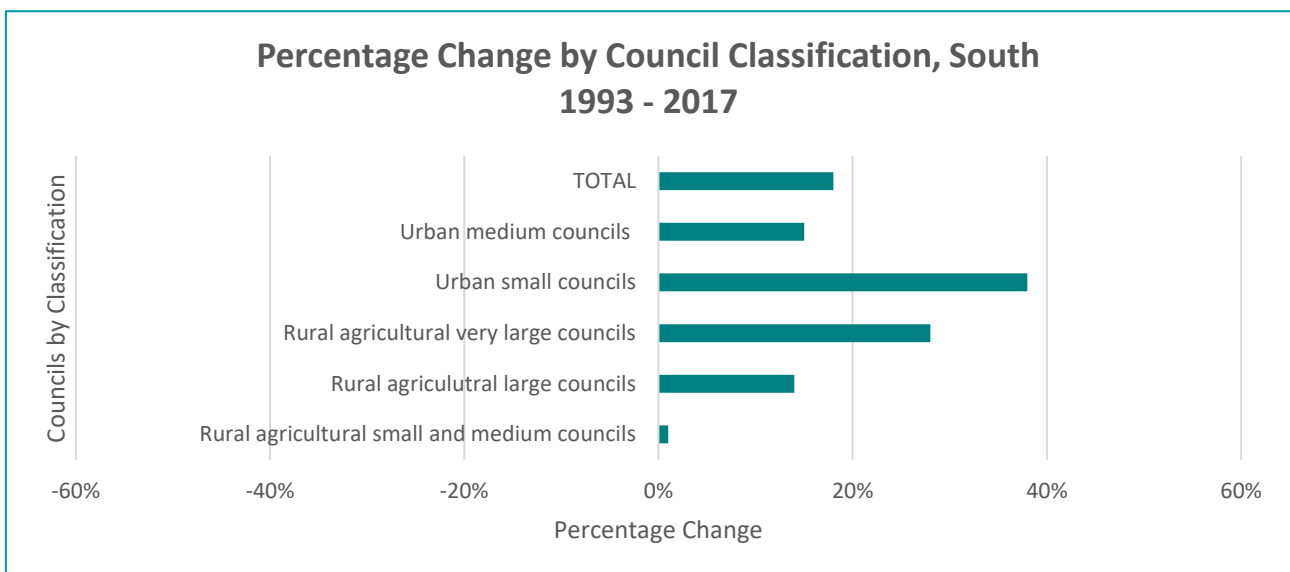

Figure 8. Percentage Change by Classification, North.

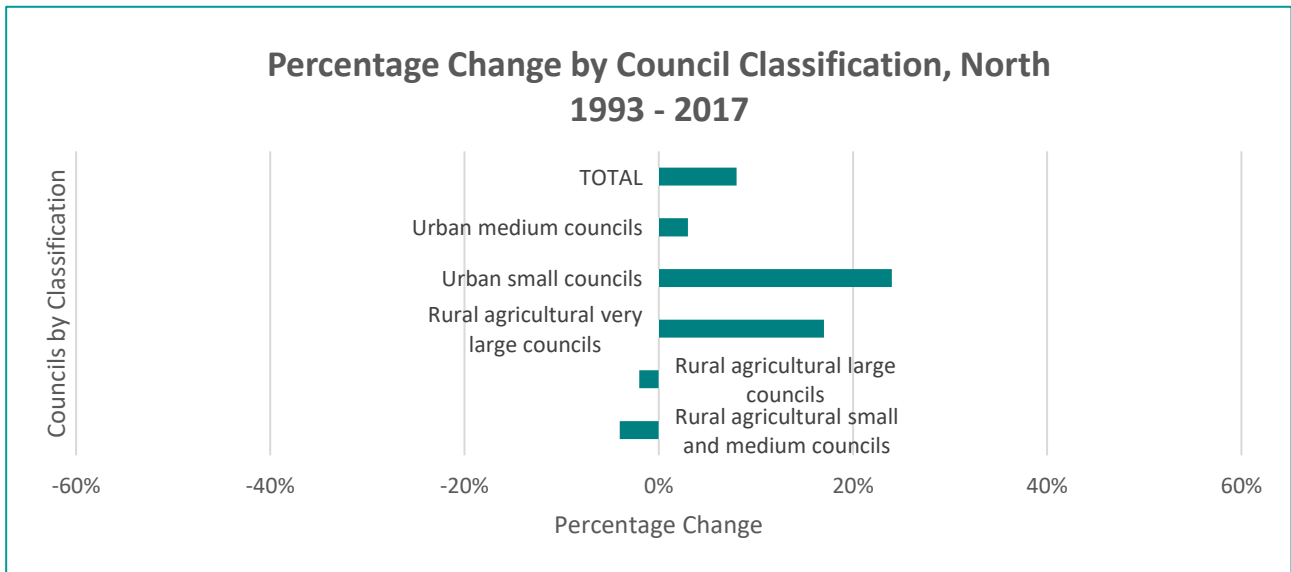

Figure 9. Percentage Change by Classification, North West

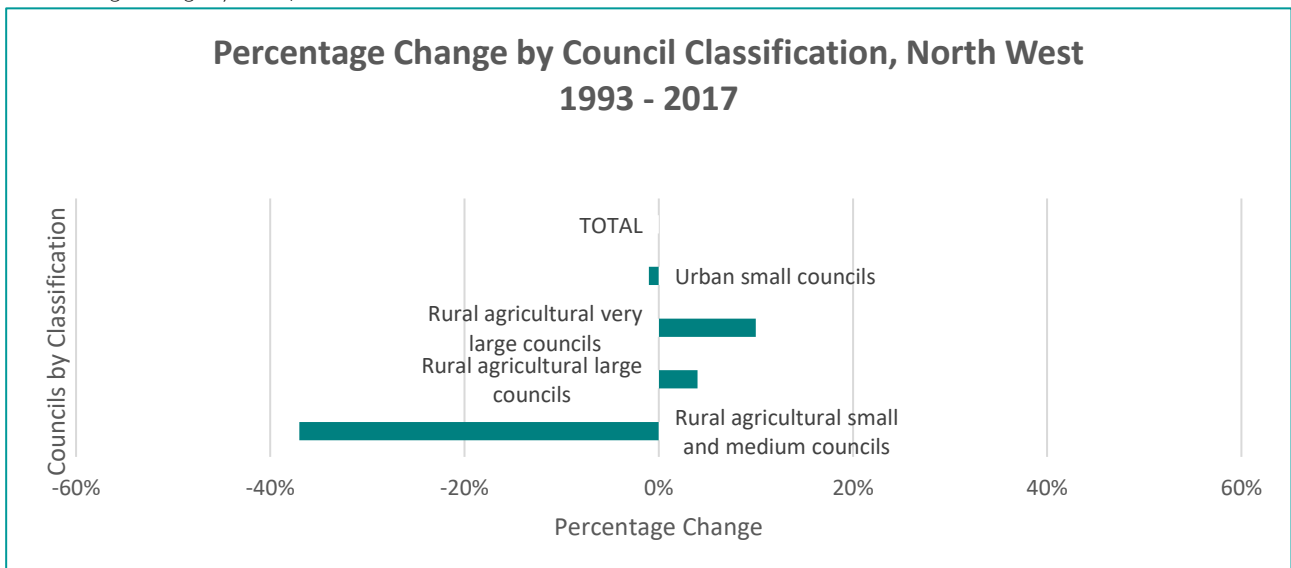

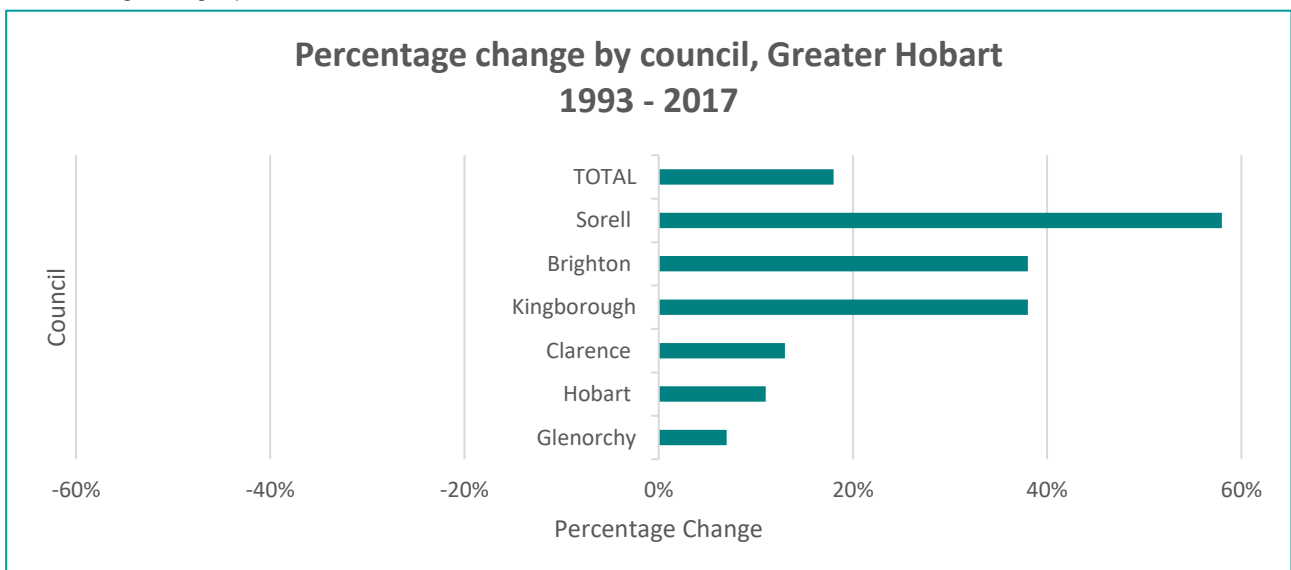

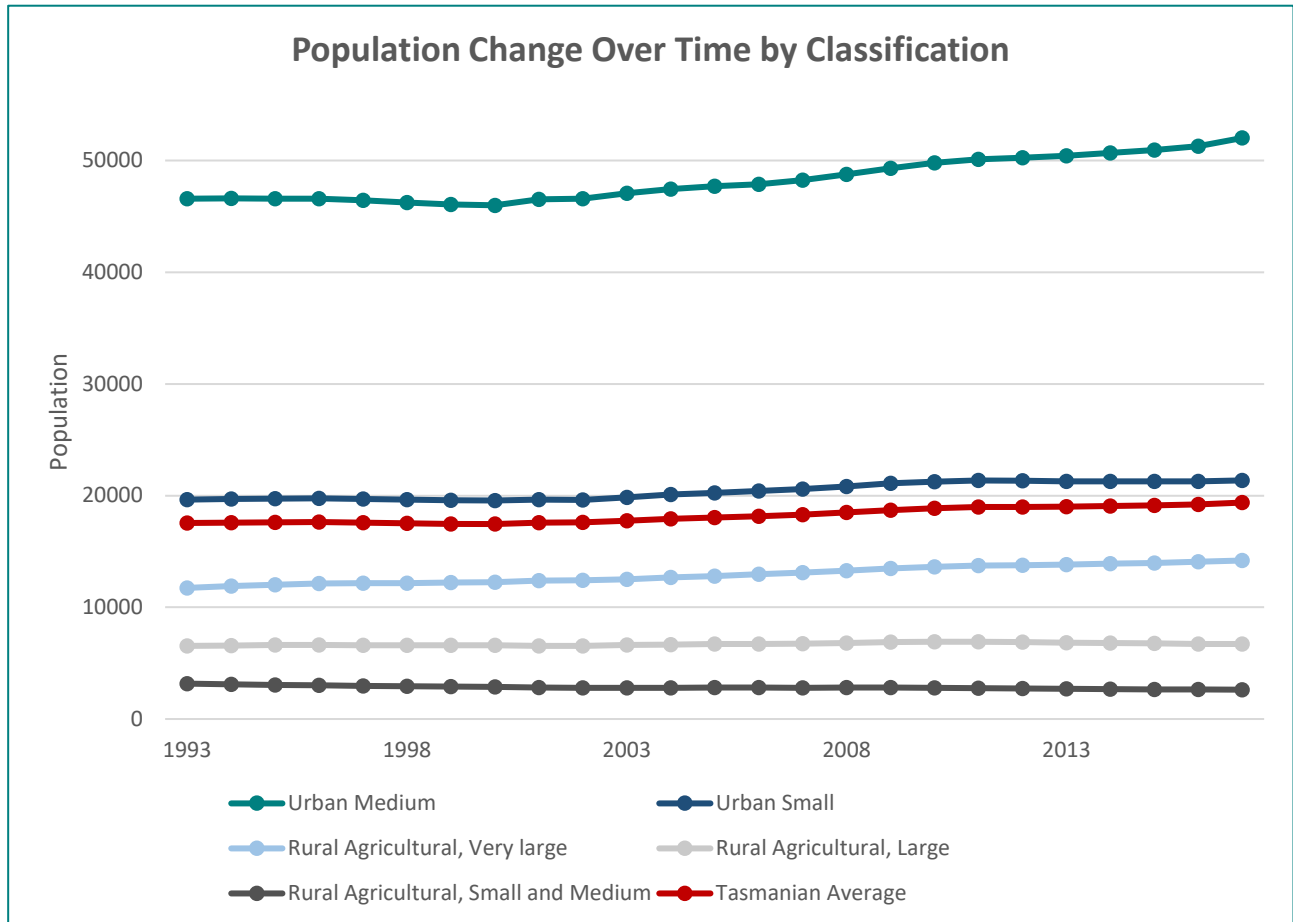

Figure 10. Percentage Change by Council, Greater Hobart

Population Change by Classification

Figure 11 shows two distinct patterns between councils with smaller populations (RAL and RASM) and those with larger populations (UM, US and RAVL). Whilst on average, UM, US and RAVL councils saw consistent increases with total increases of 12 per cent, 9 per cent and 21 per cent respectively, RAL councils only grew by 2.5 per cent in the same period and RASM declined by 17 per cent.

Figure 11, Population Change Over Time by Classification.

The following charts detail individual councils in each category, along with the average for that classification.
